

SIR NATHAN'S K9 GEM NEWS

"DOGS ARE NOT OUR WHOLE LIFE, BUT THEY MAKE OUR LIVES WHOLE." (R. CARAS)

May 2017

YES, YOU CAN AVOID A DOG BITE WHAT YOU DON'T KNOW COULD RESULT IN A BITE

More than 4.5 million dog bites happen every year in just the United States alone according to the CDC (compared to just 500,000 bites in Canada). The two most common victims of dog bites are children and the elderly.

The good news is that dogs rarely bite for no reason or "out of the blue." Keep reading to learn **why** dogs bite and **how** to avoid becoming a victim of a traumatic bite.

LEAVE A DOG ALONE THESE 8 TIMES (SEE "ONE MINUTE DOG TIP" ON RIGHT)

WHY DOGS BITE

Dogs bite as a reaction to something and **any** dog is capable of biting if they:

- Feel threatened, scared or the need to protect themselves or their puppies.
- Feel startled by sudden loud noises or unexpected actions.
- Feel sick, sore or pain.
- Feel a human is fearful.
- Feel overexcited.

HOW TO PREVENT A DOG BITE

If you are a dog owner, take the time and effort to socialize your dog early on to **all kinds** of people, children, animals, noises and situations **before** bad habits are formed like possessiveness, anxiety, fear or aggression.

K9 BODY LANGUAGE: PREVENTING BITES (SEE INFOGRAPHIC ON REVERSE)

Before getting a family dog or spending time around dogs, properly educate yourself, your family and **especially** small children to:

- Never tease or provoke a dog.
- Never approach a strange dog.
- Properly approach and pet a dog.
- Respect all dogs **and** their space.
- Stay calm and confident around dogs.
- Never force your attention on a dog especially one who appears anxious

or fearful because doing so could easily provoke a bite.

- Recognize and respond appropriately to K9 body language cues.

THE ONE MINUTE DOG TIP 8 TIMES TO LEAVE A DOG ALONE

While **most** dogs love attention **most** of the time, here **are** 8 scenarios where you **should** leave a dog alone to avoid provoking a bite.

Avoid a dog when they are:

- Trying to hide or avoid you.
- On the other side of a fence.
- Growling, snapping or barking.
- Sleeping, eating or playing with a toy.
- Not with their owner; or the owner has not given you permission to approach/pet the dog.
- With their puppies.
- A service dog.
- Sick, injured or in pain.

COOL STUFF FOR THE DOG LOVER GEM LADY TREASURES FOR DOGS & DOG LOVERS

Her name was Lady Lacy Marie, a gorgeous dalmatian with a love for jewelry, just like her devoted mom, Karen. With a career already in the fine jewelry industry, Karen set out to create beautiful and unique gemstone dog collars to honor the memory of her K9 princess (who crossed the Rainbow Bridge in 2015) as well as the love all dog lovers hold dear for their K9 family members.

Gem Lady Treasures started out with two main collections, *In The Ruff* and *Haute Dog* made with only natural gemstones (unless otherwise noted). *The Mommy & Me Collection* was recently added that features silver necklaces (with matching gemstones on the dog collar) with a sterling silver dog house and bone charm!

Now, thanks to the sweetest dog that ever lived and the current dog-in-residence (and product tester, Sir Nathan Thomas, a dalmatian/lab mix) combined with Karen's love of jewelry and all-things-K9, you and your dog can enjoy these unique, handmade and designed-with-love gemstone creations!

Go to GemLadyTreasures.biz to window shop and be sure to use the special coupon on the front when you order!

CANINE FIRST AID BASICS

HELP! MY DOG IS ANXIOUS & FEARFUL!

Anxious, insecure and fearful dogs are the first to bite when they feel overwhelmed or threatened.

Below are some natural options and remedies you can try to help your dog relax.

K9 Massage can help calm, relax and heal your dog's body and mind (add some essential oils too).

Dietary Changes, Acupuncture and Chinese Medicine are all potential remedies to effectively address K9 fear and anxiety.

Herbal Remedies, Aromatherapy & Essential Oils (like lavender and chamomile) can be soothing, calming and help promote sleep.

The More You Know

Not ALL canine anxiety or fear is behavioral. First check with your vet to rule out **any** underlying medical issues .

CHICKEN DOG TREATS

We **love** simple recipes with simple ingredients that are probably already in our kitchen!

These chicken dog treats are **guaranteed** to please even the pickiest of dogs with an added bonus of parsley to help with unwanted, flower-wilting dog breath!

"Bone" Appétit!

CHICKEN DOG TREATS

- 1 cup cooked, finely diced chicken
- 1/2 cup rice, cooked and mashed
- 3 tablespoons rice flour
- 1 tablespoon parsley
- 1 egg

Preheat oven to 350° F.

Mix all ingredients in a large bowl until well combined.

Spoon into your favorite K9-inspired molds and bake for 20-30 minutes or until tops are golden brown.

Cool before removing from molds. Store in the refrigerator.
